Protective Packaging Solutions

AIRSPEED™ SMART™ VOID FILL SYSTEM VALUE PROPOSITION

The Airspeed Smart is a convenient and cost-effective way to create inflatable cushions on-demand for compact or work-station packaging operations. The innovative lightweight system offers portability, durability and functionality. With great ease, AirSpeed Smart turns flat, easy-to-store, high performance film into lightweight, non-abrasive void-fill cushioning for a variety of packaging needs.

Machine Features and Benefits:	Results:
Compact	At just 26 lbs., this small, self-contained unit is truly portable.
Easy to operate	Simply start/stop machine, load film and go!
Reliable	Machine is engineered for durability and low maintenance.
Versatile	Single system produces inflated cushions of varying lengths and air fill levels, customized to fit your needs.
Quiet	Suitable for small areas without interfering with conversation or on-going business.
Productive	Integrate with a Smart accessory for maximum productivity and ergonomics.

SMART FOR CUSTOMERS, SMART FOR THE ENVIRONMENT

The AirSpeed Smart offers multiple film options made from low density polyethylene (LDPE). Customers can expect a high quality, tough film with outstanding air retention and puncture resistance. Air pillows take up less space and are clean, neat and non-abrasive compared to alternatives such as loose-fill peanuts and kraft paper. In addition, AirSpeed Smart films yield up to 20% more void fill than competitive films due to minimum "skirt loss".

Film and Environmental Features and Benefits:	Results:
Lightweight and compact	<ul style="list-style-type: none"> Load more rolls of film on a truck and use fewer trucks for transport. Less fuel needed for shipment. Decreased carbon emissions.
Recyclable	<ul style="list-style-type: none"> Recycling category #4. 100% recyclable. 
Performance blend	AirSpeed Smart films use less resin than competing films, yet achieves better performance.
Sustainable film option	Recycled content film available with a bio-additive blend that accelerates biodegradation.

AirSpeed Smart is an addition to the Pregis "green" family of products whose purpose is addressing the growing need for sustainable packaging alternatives. Environmentally responsible practices are an important part of Pregis' business philosophy.

EASY-TO-USE

Simple start/stop operation.

Air adjustment customizes pillow height.

Set run timer, or leave continuous run.

CUSTOM SET-UPS

Pregis designs ergonomic delivery systems for maximum packaging efficiency.

THE PREGIS SYSTEMS OFFERING

INFLATABLE VOID-FILL SYSTEMS

AirSpeed® 5000 High Speed Void Fill System

- Fast! Runs at 75' per minute.
- Full functionality, yet quick to load, and easy to operate.
- Multiple sizes and grades of market leading film.
- Wider, true width film saves money.

PAPER PACKAGING SYSTEMS

GeoSpeed™ Paper Packaging System

- Biodegradable, recyclable, and renewable.
- Great for small voids, unboxed or sharp items.
- Photoeye increases flexibility and efficiency.
- Tight crumple pattern for maximum protection.

INFLATABLE CUSHIONING SYSTEMS

AirSpeed HC Hybrid Cushioning System

- Fast! Runs at 75' per minute.
- Excellent film clarity and configuration.
- No material wasted at perforation.
- Adjustable air pressure and multiple film sizes.

ChamberPak™ Custom Cellular Cushioning

- One-step process reduces labor
- Saves warehouse space
- Reduced cubing saves freight
- Outstanding air retention, puncture resistance and cushioning
