

# PAPERplus® Chevron

PAPERplus® Chevron uses Storopack's patented pleating technique to create a very lightweight and flexible paper tube. Utilizing pockets of air to maximize fill volume the 4" diameter paper tube provides reliable protection using less paper. Fewer packing materials and lighter packages equal lower costs for you.

- Very lightweight
- Maximum fill using less paper
- Flexible and easy to handle
- Perforated every 3" to fit your purpose
- Protects light- and medium-weight products
- Formed on-demand
- Reusable and recyclable

# Economically combines air and paper to fill and protect

## PAPERplus® Chevron — Multi-purpose, efficient and convenient packaging

PAPERplus® Chevron is perfect for void-fill as well as to cushion, or block and brace. It's ideal for light- to medium-weight products of varying sizes. The easy-to-handle paper tubes are perforated every 3" providing the perfect packing material length to fit your purpose.

PAPERplus® Chevron integrates perfectly into any packaging process. Efficient, fast and simple operation combined with mobility and easy loading make it ideal for both high-speed and individual packaging station environments.
