

# PAPERplus® Shooter

The PAPERplus® Shooter mechanically creates multi-layer void-fill, automatically cuts the paper and “shoots” the pad directly into the box. The system increases productivity, saving time and reducing worker fatigue by replacing slow manual crumpling and packing. In addition the enhanced crimping system yields a bulkier paper cushion that maximizes one-ply paper to save on material costs.

- Enhanced crimping system creates multi-layer void-fill that provides greater yield from one-ply paper
- Very fast — variable speed output of 220 - 720 fpm
- Automatically dispenses void-fill into the carton — virtually eliminates manual folding and crumpling
- Cuts paper automatically to reduce worker fatigue and increase productivity
- Tabletop and floor stand models to suit any packing environment
- Reduce, reuse, recyclable

#### Floor Model Specifications

Size: 69" H x 24" W x 24" D  
Weight: 63 lbs  
Power: 110 v  
Speed: 220 - 720 fpm

#### Tabletop Model Specifications

Size: 40" H x 18" W x 24" D  
Weight: 39 lbs  
Power: 110 v  
Speed: 220 - 720 fpm

# High-speed paper void-fill dispensing system

## PAPERplus® Shooter — Fast filler and flexible features

With lightening speed of up to 720 fpm, the PAPERplus® Shooter boosts packing production by combining high-speed equipment with a unique pulling system that unwinds paper from the inside of the roll to quickly and easily create filler as needed. Plus, this well constructed, high-tech machine offers ergonomics and flexible features for working comfort and improved productivity.

- Variable speed capability allows fit-for-purpose application and helps control cost
- Enhanced crimping system traps air to create better void-fill yield using less paper
- Automatic cutting and hands-free foot pedal operation provide better ergonomics and faster throughput
- On-demand option allows for cost-control in batch packaging applications.
- Paper roll comes in specially designed dispensing carton for fast and easy roll change
- Ergonomic height adjustment for operator benefit
- Free rotating head for packing flexibility
