

THERMAL TRANSFER RIBBONS FOR FLEXIBLE PACKAGING

FLEX™ Thermal Transfer Ribbons are guaranteed to deliver superior print quality on the broadest number of materials. Engineered to exceed the performance specifications of the OEM brands, FLEX™ TTR has the Best-in-Class ribbon solution for all TTO printer lines, including:

FlexPackPRO®

Videojet®

Bell-Mark®

Markem-Imaje®

Norwood®

Open Date®

Domino®

And more!

FLEX PREMIUM NEAR-EDGE WAX-RESIN RIBBON

The clear winner in its class, this premium “General Purpose” TTO ribbon is your high quality, cost-effective choice for traditional flexible packaging applications. Crisp text, codes and graphics with very good smudge and scratch resistance.

FLEX ULTRA NEAR-EDGE WAX-RESIN RIBBON

Remarkably versatile, FLEX™ ULTRA prints clear, dark images on most coated, uncoated and film substrates while providing added resistance to smudging, scratching and less friendly environments. Extra protection at an affordable price.

FLEX SUPREME NEAR-EDGE RESIN RIBBON

When durability is critical, and exposure to heavy contact, solvents or harsh environments is of great concern, FLEX™ SUPREME is the answer. This special resin ink formulation provides a nearly indelible image on flexible packaging film, pharma grade pouches and synthetic labels.

Our Xtend™ anti-static back-coating maximizes the life of your printhead.
